

西花畑校区基礎調査箇所

- 
- This map displays the Seihatahata District, highlighting areas with existing landslide hazards and designated investigation points. The map features a grid of streets and various colored overlays. Orange areas indicate 'Red Zones' (existing landslide disaster special warning areas), while yellow areas indicate 'Yellow Zones' (existing landslide disaster warning areas). Purple dashed lines delineate the district boundaries. Green solid lines outline investigation points for landslides, and blue solid lines outline investigation points for steep slopes. The map also shows a river flowing through the district.
